

# Green Space in Bicester

Do you live or work in Bicester?  
What do you think about Bicester's green spaces?

We are interested in public views about the value of green space in Bicester and how it could be improved.

If you'd like to share your views:

- Come and see us in **Bicester Library, Sat 8-Fri 14 July, 10am-5pm**
  - Ask to come to our workshop, Sat 22 July 10am-12.15pm
    - Try the App: <http://map-me.org/sites/BicesterGS>
      - Or email: [alison.smith@eci.ox.ac.uk](mailto:alison.smith@eci.ox.ac.uk)

This is part of a research project involving the Environmental Change Institute at the University of Oxford, working with Forest Research, Cherwell District Council, Bioregional, Bicester Town Council and others

## What green spaces do you use or value?

Parks, playgrounds, nature reserves, playing fields ...

## How do you use or value these spaces?

Recreation, aesthetic value, education, seeing wildlife, sense of place, or just knowing it exists?

- Could existing spaces be improved, and how?
- How could we encourage more people to make use of existing green space?

- Where is new green space most needed?
- Could existing spaces be linked together better?

- Is it easy to walk or cycle in Bicester?
